The books are reduced to 4x7 inch black and white photocopies of the original on cheap paper. It does state the size of the package in the details...I guess that means I need to read details more carefully.If you can read really small type, this set is a great buy. If you only need it for infrequent reference, you'll do fine with a magnifying glass or a squint. If you expect to sit down and have a leisurely read, forget about it. It's not an attractive product like the originals are so most likely, you're not going to want to invest much time actually reading them.I think it's great that Prima released this version which is why I'm giving it 3 stars. It's a good gift for a Sims 2 nut. I'll probably get it for my niece who is away at college since it doesn't take up much room. However, I would be willing to pay twice the retail price for a set of the full-size books.4 of 4

I also expected smaller type. What is so bad about it is the fact that it is not a reformatted-for-smaller-size guide, it's a guide with the existing pages shrunken down. You can't see the pictures at all so forget about them, you can barely read the text (especially in the Nightlife guide where the text is printed over what was supposed to be a watermark design...doesn't work so well with bad paper and tiny font). These guides would be awesome if they'd reformatted the pages to accomodate the pocket size idea. This set was created to make a quick buck, and Prima eliminated the overhead by not delivering a decent product.0 of 0 people found the following review helpful. If you are new to The Sims 2 and at this price - a must buy.By RickThese books are great. There is so much information packed into these seven books. There is a book for the core "The Sims 2" game and then one each for six "The Sims 2" extensions. There are things you can do playing the game that you wouldn't realize if you didn't have the game guides available to reference. And what a bargain at less than \$10.00 delivered. The seller I bought from had these books to me in less then five days. All around great purchase.As mentioned in previous reviews, you're going to have to wear your reading glasses because the print is small.

Titles: This box set will include Sims 2, Sims 2 University, Sims 2 Nightlife, Sims 2 Open for Business, Sims 2 Pets, Sims 2 Seasons, and Sims 2 Bon Voyage. Objects Socials: Detailed stats for every object, social, and build mode upgrade. Careers: Stats and tutorials for every career path in the Sims universe. Packaging: With the new stylized box art and mass-market trim size, this box set is dressed to impress.
