is an appropriate book for my students who are going to their State (NYSSMA) solo festival. It is very basic and builds the skills that they need for sight-reading. It also has 2-pt songs that culminate the skills that they have learned. 2 of 2 people found the following review helpful. Four Stars By Remmy Good sight singing book. I am learning a lot. 0 of 0 people found the following review helpful. Good for new teachers By lynne wittung Good start to review or teach the basics for middle school. Good for new teachers and easy for students to understand.

A sequential sight-singing curriculum for all choirs. Each of the six units (containing four lessons each) clearly introduces new music reading concepts, reinforces those concepts with several rhythm and pitch exercises, motivates students with helpful hints and challenge exercises, and concludes with fun-filled review games and "Evaluating Your Performance" questions. The helpful "Getting Ready" pages (which precede each unit) are filled with music fundamentals, and for choirs who have never read music before, an optional "Before We Begin" chapter opens the book. And it's all neatly laid out in a 96-page octavo sized publication; a perfect fit for your students, and their folders. From whole notes to sixteenth-note patterns, seconds to sevenths, key signatures, dynamics, articulations, and tempo markings; it's all here, and it's all logically ordered to insure student success! Spend just a few minutes a day with this book and your choir, too, will learn to "Sing at First Sight!" This title is available in SmartMusic.
