From Alfred Publishing : Six English Suites (Belwin Classic Library) before purchasing it in order to gage whether or not it would be worth my time, and all praised Six English Suites (Belwin Classic Library):

0 of 0 people found the following review helpful. Good, inexpensive editionBy WillisExcellent and useful edition - and it even has the bar numbers now!0 of 0 people found the following review helpful. music is too close to the margins, pages fall out, AVOIDBy David A. CaufieldI bought this collection of Bach's English Suites mostly because of the price. Well, you get what you pay for. Much of the music is printed too close to the margins, making it impossible to read, and when I tried to fold back the pages, they simply fell out. Also, there are errors in several of the scores, which is totally unacceptable.Spend some extra money and get an edition of better quality (like Wiener). I've already ordered mine.1 of 3 people found the following review helpful. not compact enoughBy Nathalie R.I went for this cheap version (which usually suits me well like Dover's or Schirmer's ones). However, I cannot play with this one

as it is really not compact and makes reading and page turning quite tedious. Indeed, it takes twice or even three times the number of pages than other versions I used previously.

Another popular and often taught collection of Bach works is added to the respected Belwin Classic Library. Bach's Six English Suites have been newly engraved from the acclaimed Hans Bischoff edition. These fresh, easily read pages will make lessons and work towards performance more simple and exciting. Included is a lengthy preface by Bischoff, discussing materials used to develop this edition, along with various footnotes throughout the text to clarify performance.
