I am still exploring the book, but the book is worth owning. if you can play positions one through four you can play most of the musical phrase s. You will play most of the musical phrases with intermediate knowledge. However, you should know some positions fifth to thumb positions and tenor clef to play through the pieces completely. I do not care to play through the pieces completely and I am happy getting the 80% of the music. I can play up to the A and D in seventh position.0 of 0 people found the following review helpful.
