By veggie gardener Kindle (and Belwin) Version only - this had a wrong note in #10 chorale. treble clef B over a A in the bass. needs to be proofread. love these chorales. just not the Kindle errors. Belwin has same mistake. Chorale #3 has error, too. my hard copy had it right, it's Kalmus, too. The hard copy is awesome. with ring style notebook. fix it and they will come. 0 of 0 people found the following review helpful. easy to read By Frodo For a beginning student in piano, but a long time chorale person, this an excellent storehouse of music I love to hear and now play. I may struggle to play

it, but I love the music and that is enough. If you can read piano music this is a keeper for Bach. 3 of 3 people found the following review helpful. excellent practice for Figured bass By Customer Great for practicing figured bass and the price made it affordable for any student. Recommended for any student learning figured bass and harmonic analysis.

This collection of chorale melodies has an added bass line, and in many cases figured bass numbering beneath the bass notes. 48 pages.
