**Prima Games : Skies of Arcadia Legends (Prima's Official Strategy Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Skies of Arcadia Legends (Prima's Official Strategy Guide):

Skies of Arcadia - The Informative ReviewBy Kimberly Sheffield KekichI loved Skies of Arcadia when it first came out on the Dreamcast, and many people who have played it are skeptical on whether or not to pick up the GC port. To sum it up, I think its worth playing again, and there are enough extra features to keep you going the second time through. Now for the strategy guide.As for everything non-sidequest related, this book does it quite well. Only once can I remember there being a major mistake (by that i mean a mistake that doesn't involve an occasional missed chest or something minor like that), and that is in the Dark Rift. You'll probably figure out the mistake soon enough, as it involves taking the wrong 'vortex' but this should have been cleared up. I fortunately knew about this mistake before I got to the Dark Rift, but some people won't and it will probably lead to alot of confusion. So I'll give a 9/10 just on the main walkthrough.Now for the sidequests... Concerning the Bounty

Hunting sidequest, this walkthrough could have been better. Yes, it lists the names of the pirates, but you do not know where to find them. I was forced to consult another online guide for more information on this. Concerning the chams and moonfish, this guide does it pretty well, and lists all the locations. The Discoveries are all listed and there, with brief explanations on how to get them, but (maybe its just me) I still found myself consulting another guide for a few discoveries in hopes of a more detailed explanation. However, this was easily offset by the map Prima included, which contained every discovery, so if you were wondering if a discovery was on the north or south side of grid 6,3 for example, you could check the map and it'd be right there. This was a pretty welcome addition. Crew Members... hmmm... these were done shoddily. As with the bounty hunting, this guide lists the locations of crew members, but explanations are not given for some. For example, the guide doesn't mention that you need to talk to Hans, then leave and talk to him again in order to recruit him. It's little things like that which really lower the score in the sidequests area. I will give the sidequests portion of the guide a 6/10. All in all, Prima constructed a good guide. I wanted to give this guide a 5/5 stars since I love the game so much, but unfortunately it just misses in a few key areas. If you love doing sidequests in games like I do, you'll probably be consulting an online guide for the occasional additional help.- Joseph10 of 13 people found the following review helpful. I can't believe this guide is selling for 100 dollarsBy Chuck SteakOne of the mysteries of life. How can a substandard strategy guide for a game that most people have never heard of sell for 100 plus dollars? I lucked out on E-bay, and bought the game and guide together for 45 dollars. But my friend has been searching endlessly on ebay, , and all over the net for this stupid guide and has yet to find it at a reasonable price. One of the third party sellers he found tried to sell it for 700 dollars!! What the hell is going on?At any rate, this guide is probably worth 10 dollars. There are all sorts of errors in the walkthrough, grammatical errors throughout, and they don't even tell you everything a guide should, like the location of all the hidden treasures and items. Sure, it tells you where to find the discoveries, but anyone can find that information in greater detail on the web. Certainly I can sympathize for the gamers who discovered that Skies of Arcadia is probably one of the most underated games for the gamecube, but if these high priced sellers are tempting you, don't even think about it. You won't even be able to afford the gun and bullets required to off yourself once you realize the stupidity of your purchase.8 of 13 people found the following review helpful. Is this 'SELLER' on heavy 'DRUGS' or something.....By Lynn M. VanceI thought i was seeing things when i seen this book advertised for \$399.99. This is a 'VIDEO GAME/STRATEGY GUIDE', NOT A 1ST EDITION COPY OF 'SHAKESPEER'S "HAMLET"' OR ANY OF THE GREATEST 'LITERARY' WORK'S OF THE PAST CENTURY!!! WHAT KIND OF 'NUT' WOULD BUY (OR TRY TO SELL...FOR THAT MATTER) a 'VIDEO GAME STRATEGY GUIDE FOR \$400.00??? I am a 'HUGE' Gamer and a collector of all things that have to do with 'PC CONSOLE' GAMES, but there is no way in 'THIS LIFE TIME OR ANY OTHER' that i would pay the kind of COMPLETELY "OUTRAGOUS" price that this seller is asking for. WORD TO THE WISE TO THIS SELLER: 'LAY OFF THE CRACK COCAINE'.....

Your Adventure Awaits Complete walkthroughs of every level Learn the secret workings of Magic Crucial tips on finding and using equipment Detailed breakdowns of enemy pirates, ships, and monsters Master each character's moves for victory in battle Unlock hidden treasures Discover the best crew combinations
