Francis Heaney, Conceptis Puzzles : Snakes on a Sudoku before purchasing it in order to gage whether or not it would be worth my time, and all praised Snakes on a Sudoku:

5 of 5 people found the following review helpful. fun sudoku movie tie-inBy audrey francesIf you're familiar with sudoku, a number puzzle in which you must complete a partially filled-in number grid based on one basic rule, you will enjoy this themed tie-in.Instead of the 3x3 boxes within the larger 9x9 box, the puzzles contain 9-unit winding snakes, and you must meet the usual requirements of a sudoku puzzle using the unusual winding shapes. This adds interest to the popular puzzle and is a clever idea by promoters.There are 51 easy, 51 medium, 51 hard and 17 very hard puzzles. Answers are included.0 of 0 people found the following review helpful. I AM SO HOOKED!By

GeeJayI've loved Sudokus for years, but the Snakes have me hooked. I started with the easy ones and couldn't stop. They are sneaky little devils and I can't put this book down. Even my husband, who has never before done a Sudoku, has pencil in hand (when my back is turned). Ha Ha. Hours of captivation for a few bucks? Go for it!1 of 1 people found the following review helpful. The best Sudoku book ever!By EmilyThis is by far the most interesting type of Sudoku! Some books include a few puzzles of this type and leave you wishing that you didn't have hundreds of boring 9X9 squares left to solve. I'm ordering a new copy to do over because I haven't been able to find another book as good as this!

There Are Snakes on the Sudoku! I Repeat, There Are Snakes on the Sudoku! When we said we wanted to combine the excitement of Snakes on a Plane with the intellectual stimulation of sudoku, everyone said we were crazy. Well, whos crazy now? We totally took regular sudoku puzzles, got rid of those safe 3-by-3 squares, and replaced them with deadly snakes. There are over 1,500 snakes in this book, and Agent Flynn isnt here to help you. Are you ready for the challenge?
