From Carl Fischer : Solos for Flute: 36 Repertoire Pieces with Piano Accompaniment before purchasing it in order to gauge whether or not it would be worth my time, and all praised Solos for Flute: 36 Repertoire Pieces with Piano Accompaniment:

I had been looking for a solo book with some good selections, and I must say that I am very pleased with this. Of course not everything was originally composed for flute, but all the tunes are fun to play, some are extremely easy, and others are more complex. Either way, the melodies are great for gigs, or easy listening for an audience. A friend of mine is a clarinetist but is taking a woodwind methods class, and he asked me for flute repertoire that wasn't too easy nor too hard but that he would enjoy, I let him borrow this book and he found it to be

very helpful. Personally I enjoy playing some of these melodies when I am frustrated with my other repertoire. I also assign some of these solos to my students in high school, and they quite enjoy them as well. So if you are just beginning or if you're looking for solos to add to your repertoire, I recommend this book. Before I bought this though, I was concerned with some of the reviews commenting on how the solo part wasn't included, only the piano part was and vice versa. I just decided to give it a shot, and my music came in as described: with a separate solo part and a separate piano part. So I guess they fixed whatever technical problems they experienced before. 15 of 15 people found the following review helpful. No Flute Part By anon I've taught from this book for years, and I usually buy it from local music stores. I decided to order from , and was pretty angry to receive only the score and not the flute part. It is not printed this way, so I'm not sure why it's being sold this way. The title is 36 Repertoire Pieces WITH piano accompaniment. Not Piano Accompaniment only. The "with" in the title implies that there are two parts. Ridiculously annoying. 1 of 1 people found the following review helpful. BUY NEW and IT DOES COME WITH THE SEPARATE FLUTE PART :) By Musicteach71 I was so confused by some of the reviews so I am going to clarify. If you buy this NEW from , it DOES come with the flute part. This has been in my watch list forever and that's why it didn't buy it sooner. BUT my daughter's flute teacher wanted her to get it, so I had to! It includes standard repertoire every flutist should know. Most pieces are intermediate with a few more advanced pieces. The pieces are only 1-2 pages which makes it handy for when you need to throw a solo together in a short time period.

A large collection of 36 repertoire pieces for flute with piano including works by Bach, Bizet, Debussy, Faure, Gossec, Marcello, Saint-Saens, Schubert and others.
